

DIEBOLD 220 EXPRESS CASH DISPENSER

Focus on the business of
building relationships

Diebold's high speed cash dispensing solution equips your staff with the power to save time, improve accuracy and offer a more rewarding customer experience.

Streamline Your Processes

Engineered with the reliability you'd expect from Diebold, the 220 Express Cash Dispenser is a work horse. Interactive touch screens and on-board diagnostics keep your operations running smooth. It's the cash dispenser that is indispensable.

Enhance Your Service

Swift, accurate transactions are a catalyst toward more engaging relationships with your customers. This in turn, provides your customer with a stronger connection to their financial institution.

Achieve Your Potential

Dramatically impact branch metrics with greater efficiencies and lower employee turnover. Diebold's Express Cash Dispenser allows you to optimize your overall cash inventory and fully manage unproductive cash in the system.

Redefine Your Branch

The small footprint gives it the sleek solution you need, while the legendary Diebold security features provide the peace of mind you deserve. Slide it under a counter or put it on display, the 220 Express Cash Dispenser fits right into your branch strategy.

DIEBOLD[®]

Best in Class Technology

Few environments demand the precision and reliability of the self-service channel. That is why we engineered the Advanced Function Dispenser into our 220 Express Cash Dispenser. This same revolutionary technology is found in Diebold's award-winning Opteva® family of ATMs. Rapid, accurate note delivery and unparalleled reliability...it's a combination you can count on.

- Five or six multimedia cassettes provide the industry's highest capacity levels for maximum flexibility
- The AFD utilizes proven friction pick technology for increased throughput and efficiencies
- Divert cassette with open bin
- Enhanced security features include dual locking gate and fraud deterrence measures

Seamless Connections

Diebold's family of Teller Automation solutions can be fully integrated into a wide variety of network configurations. Flexible enough to accommodate your existing teller software, the Express Cash Dispenser is fully customizable to suit your specific needs.

Well-Planned Design

The small footprint allows the Express Cash Dispenser to slide right under a standard countertop. Its sleek, modern appearance makes it beautifully suited to stand on its own.

Full dimensions:

- Height: 959 mm (37.75 in)**
- Width: 440 mm (17.30 in)
- Depth: 776 mm (30.50 in)
